

Stridelane

SYSTEM BUYER PACKET | EARLY ADOPTER RELEASE

Own the pace.

Pricing, setup, procurement, and pre-order information for the Stridelane pacing light system.

Important: The website pre-order form is an information request only. It does not collect payment or create a purchase obligation. Price is locked when the purchase agreement is signed.

At a glance

Decision point	Stridelane system
400m single-budget purchase	\$24,999 lowest early adopter price
200m single-budget purchase	\$14,999 lowest early adopter price
Early adopter delivery	First batch begins October 2026
Lead time	Approximately four weeks
Setup	About one hour with two people
Power	One standard outlet
Placement	Semi-permanent and movable
Purchase orders	Accepted

Sales tax is not included. Many school and public programs may qualify for exemption; the buyer is responsible for providing any required exemption documentation.

What your program receives

Included with either system length

- Pace lights sized for the selected 200m or 400m configuration
- Stridelane pacing software
- Controller box
- Two road travel cases for storage and transport
- Two-year limited warranty, subject to the written warranty terms
- Access to purchasable replacement parts

Site and setup requirements

Decision point	Stridelane system
Installation responsibility	Buyer installs the system; Stridelane installation is not included
Typical crew	Two people
Typical setup time	Approximately one hour
Electrical requirement	One standard outlet
Outdoor use	System components are designed for waterproof operation
Storage	Store the system in the supplied road cases when not in use
Configuration	Semi-permanent installation that can be moved
Before ordering: Confirm the intended track length, outlet access, storage location, setup crew, and purchasing authority for your program.	

Warranty, storage, and replacement parts

The system includes a two-year limited warranty. The written warranty supplied with the purchase agreement defines covered damage and any exclusions. Replacement parts remain available for purchase. When the system is not in use, store its components in the two supplied road travel cases.

A clear path from interest to delivery

1. **Submit the information request.** Tell Stridelane which system and purchase path your program is considering. No payment is collected online.
2. **Confirm fit and terms.** Stridelane reviews the configuration, buyer details, timing, and required procurement documents with your program.
3. **Approve the written agreement.** The system price is locked when the purchase agreement is signed. A purchase order may be used when required by the buyer.
4. **Complete the payment requirements.** For a single-budget purchase, 50% is due before shipment and the remaining 50% is due after delivery, with both payments completed within the same budget cycle. The website does not collect payment.
5. **Receive and set up the system.** Plan for approximately one hour with two people. The first early adopter batch begins delivery in October 2026.

Two-budget-year purchase plan

This optional flexibility plan carries a premium while Stridelane carries the unpaid balance into the next fiscal year. 400m: \$26,499 total - \$13,250 before delivery and \$13,249 next budget year; save \$1,500 with a single-budget purchase. 200m: \$15,999 total - \$8,000 before delivery and \$7,999 next budget year; save \$1,000 with a single-budget purchase. Use begins after the first payment; ownership transfers after the final payment. Both options include the same complete hardware and software.

Terms control: Website and packet information is a planning summary. Final scope, payment dates, financing terms, warranty coverage, and delivery commitments are stated in the signed agreement.

Information Stridelane needs

- Program or organization legal name
- Primary contact, title, email, and phone
- Billing and delivery addresses
- 200m or 400m system selection
- Indoor or outdoor track and intended placement
- Target delivery timing
- Purchase method: single-budget purchase, purchase order, or two-budget-year purchase plan
- Tax-exempt documentation, if applicable
